## **Internship Program Admissions**

**Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:**

This internship is accredited by the American Psychological Association and adheres to the Scholar-Practitioner model of training. We have three (3) funded internship positions. It is the goal of the program to help interns to become competent and knowledgeable psychologists working with a long-term mentally ill adult inpatient population. The facility provides treatment using a multidisciplinary psychiatric rehabilitation model. The clinical training provides each intern with a unique opportunity to gain practical experience in assessment, consultation, and intervention with a diverse patient population. South Florida State Hospital internship offers two distinct tracks to interns. A Clinical Track is completed by two interns, and it includes two six-month rotations: Psychological Evaluation and Behavior Assessment & Consultation. There is a separate 12 month Clinical Forensic Track for applicants interested in forensic psychology issues. Therefore, applicants who are interested in the Clinical Forensic Track should indicate this interest in their cover letter and the application materials. Regardless of the intern's track, the intern will have the opportunity to build skills in the areas of forensics, psychological assessment, and behavior assessment and consultation, since all interns complete a core curriculum in clinical practice. Interns will have an opportunity to co-lead different psychoeducational groups, provide individual psychotherapy and complete psychological evaluations. They will have an opportunity to provide supervision, and will participate in diversity, forensic, and assessment seminars, and supervision of supervision group. Interns will also participate in multidisciplinary treatment team meetings.

The following requirements must be met in order to be considered for our program:

- U.S. citizenship
- Doctoral student in clinical or counseling psychology from an APA-accredited program.
- Completion of the APPI online application.
- Cover letter must specify which track the applicant is interested to apply.
- One sample of an integrated report from a practicum site.
- Certification of internship readiness by graduate program training director
- Completion of graduate program's comprehensive/qualifying examinations by ranking submission date
- Any offer of employment, including psychology internship, is contingent upon, but not limited to, the successful completion of the following: Level 2, Florida Department of Children and Families Background Investigation; Drug testing and pre-employment physical including Tuberculosis screening; Proof of measles, mumps and rubella (MMR) vaccination if born after 1957; Mandatory 5 day facility Orientation which includes certification in "MANDT," our verbal de-escalation training process and Certified Pulmonary Resuscitation.

Due to public health precautions, selected applicants for the 2022-2023 training year would be invited to interview during the month of January. Depending on the via teleconference. The interview should last approximately one hour with the supervisors. An additional time would be allotted to speak with current interns about their experience. A tour of the facility and additional information about the program will be available through a video found on the internship website.

<b>Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:</b>			
Total Direct Contact Intervention Hours	Y		Amount: 400
Total Direct Contact Assessment Hours	Y		Amount: 75

<b>Describe any other required minimum criteria used to screen applicants:</b>
Minimum of 600 hours of Supervision and Support Activities combined
